This, almost the total revenue for a year, is already spent. And "the water tax is no borden."

In the background was a large shock of coru; on the right and slarge shock of corn; on the right and left were shocks of oats; in front of the corn shock was a table containing apples and potates. On the floor were pumpkins, kershaws, etc., and on the oater edges plies of corn. The corner posts of the pulpit were entwined with viacs and shrubs, while the lower platform was a mass of pot flowers. The services were very interesting; the sermon an excellent one and a collection of over \$25 was taken for the poor.
